

# LAND OF HOPE

## RESERVE CABERNET SAUVIGNON 2022

### IN THE VINEYARDS

Top Cabernet Sauvignon is synonymous with South Africa's traditionally most recognised wine region, Stellenbosch. This wine is from a single vineyard, rooted in magnificent decomposed granite & clay soils on the Helderberg Mountain in Stellenbosch. These ocean-facing vines produce some of the most complex fruit and individual flavours of the land, combining the geological and climatic uniqueness of this site.

### IN THE CELLAR

As usual all grapes were hand picked and placed into lug boxes for manual sorting so that only the most perfectly ripe bunches were selected. Then whole berries were put into 600L wooden open-top fermenters. These filled barrels all fermented spontaneously and individually, each developing its own flavours and aromas, resulting in far greater complexity than could be achieved by fermenting a single volume. The wine was left to mature on lees over the course of 16 months in small French oak barrels, predominantly older oak. Minimal intervention throughout meant that the wine was able to develop its wonderful personality, rather than a contrived commercial character.

### A NOTE FROM THE WINEMAKER

This Cabernet Sauvignon has depth and fullness with a plush and rounded structure and at the same has the restraint to remain elegantly poised. Amazing fruit purity in the shape of an expressive blueberry note rewards and intrigues. This is a natural interpretation of our site, on our spot land where we live and raise our children – and our fruit.

### TECHNICAL BITS

VARIETIES	Cabernet Sauvignon
APPELLATION	<i>Stellenbosch, South Africa</i>
ANALYSIS	Alcohol: 12.5% vol
	pH: 3.70
	Residual sugar: 1.7g/l
	Total acidity: 5.0g/l
